## EDUCATIONAL NOTICE.

1. THE Calcutta Medical College Session of 1875-76 will commence on the 15th June next.

2. Students who may be desirous of commencing their studies are requested to apply to the Principal of the Medical College between the hours of 10 A.M. and 4 P.M., on or before the 15th June next, when the ten (10) vacant free presentations will be awarded. These are given to candidates upon their relative position in the University First Arts, B.A. and B.L. Examination, preference being given to those who have passed the highest examination.

3. The possession of the "First Arts" certificate of the Calcutta University will entitle students to enter the Medical College.

4. The course of instruction given in the Calcutta Medical College is framed to meet the requirements of the Calcutta University for obtaining its degrees in medicine and surgery.

5. The candidates who may fail in obtaining free presentations may be admitted as students on payment of an entrance fee of Rs. 15, and a further sum of Rs. 5 monthly during the period of their stay at the college, provided they enter into a guarantee to follow out the college curriculum to a close, and to graduate at the Calcutta University. Candidates who do not intend to graduate in Calcutta, or who wish to attend only a few courses of lectures, may be admitted as casual students on payment of a fee of Rs. 40 for each course of lectures, or Rs. 60 for six months' attendance upon any single branch of hospital practice. The cost of educating a casual student to compete at the examination of the Royal College of Surgeons of England amounts to Rs. 810.

6. The certificates of lectures and hospital attendance of the college are recognized by the University of London, the Royal College of Surgeons of England, and the Worshipful Society of Apothecaries of London.

The following order, issued by the Government of India in the Military Department, is republished for general information—

*No. 580—India, the 4th June 1875.*—With the approval of Her Majesty's Government the Right Hon'ble the Governor-General in Council is pleased to direct the publication of the following rules for the examination of Surgeons of the Indian Medical Service previous to their promotion to the rank of Surgeon-Major under the provisions of clause 2 of the Royal Warrant of the 10th May 1873, published in G. O. No. 673 of the 1st July 1873,

This order is applicable to the three Presidencies—

*Rules for the Examination of Surgeons previous to promotion to the rank of Surgeon-Major*

This examination is intended as a test for promotion, and may be taken at any time after the Surgeon has served nine or more years.

When Surgeons have served the requisite time, they will be examined in the following manner:—

A series of printed questions prepared by an Examining Board, consisting of the Principal of the Medical College and any two or more of the Professors he may associate with himself for the purpose, will be sealed and sent by the Surgeon-General to the principal Medical Officers of stations where Surgeons may be eligible for examination. It will be the duty of the principal Medical Officer of the station to deliver these sealed questions to the Surgeons, and to see that they are answered without the assistance of books, notes, or communication with any other person. The answers are to be signed and delivered, sealed, to the principal Medical Officer, who is to send them, unopened,

to the Surgeon-General, together with a declaration from the Surgeon himself, or certificate from a superior Medical Officer, if there is one, that he has availed himself of every opportunity of practising surgical operations on the dead body.\*

The Surgeon is also required to transmit, together with his answers to the Surgeon-General, a medico-topographical account of the station where he may happen to be at the time, or of some other station where he may have been resident sufficiently long to enable him to collect the necessary information for such a report. Failing this, he will send a medico-statistical report of his charge for a period of at least twelve months.

If the Examining Board is satisfied with the replies to the questions, and the Surgeon-General is satisfied with the certificates and with the medico-topographical or statistical report, the Surgeon will be held qualified for promotion.

R. L. MANGLES,

*Offg. Secy to the Govt. of Bengal.*

\* The Surgeon may see this certificate before it is sent to the Surgeon-General.

## NOTIFICATION

The 2nd June 1875.—Whereas a plan was submitted under Section 2 of Act V (B.C.) of 1873 for extending gas-lighting to certain portions of the town of Howrah, as published in the Government Notification dated 1st May 1875, and whereas no objections have been raised to, or any alterations suggested in, such plan within one month after a translation of it in the vernacular had been published in the town aforesaid, the Lieutenant-Governor is pleased to accord his sanction to the said plan, which is described below:—

1. The portions of the town to which it is proposed to extend the lighting are that portion of the Grand Trunk road which lies between Ramkistopore Ghaut Road and Bishop's College Road, Seehpore Ghaut Road and Ghoseery Road. The total length of these roads is 2½ miles, and the number of lamps proposed to be erected in them is 75.

2. The total valuation of buildings and lands situated in these streets is Rs. 1,61,564, and a rate of 8 per cent. would yield an income of Rs. 1,210 per annum, which gives an average of Rs. 64 per lamp for defraying the cost of lighting. A communication has been received from the Oriental Gas Company agreeing to accept this sum in payment for supplying gas.

3. The cost of purchasing and erecting the lamps is estimated at Rs. 1,125, and this sum the Municipal Commissioners propose to provide from the general fund during the current official year.

Any two rate-payers may nominate a candidate, and may inform the Magistrate of his candidature on any date not later than the last day of February. The Magistrate shall ascertain if the candidate accepts the nomination and is qualified under the rules, and if so, he shall notify such candidature at the catcherry and at one or more police-stations in the town, as he may see fit. Such notification shall state the name, residence, and qualification of the candidate.

Notice of candidature

5. If any rate-payer object to the eligibility of any candidate, he may on some date, not later than the 6th March, notify such objection in writing to the Magistrate, who shall hear and finally decide any question of eligibility. On the 10th March the final list of candidates shall be notified at the catcherry and in at least one conspicuous place in each quarter.

Objection against candidature

6. The Municipal Commissioners shall appoint a Sub-Committee of three of their number to assist the Magistrate in carrying out the following rules regarding election.

Election of sub-Committee of Commissioners.

The Magistrate shall decide on what day, not later than the 25th March, the election shall be held, and he shall notify such decision at the catcherry and in at least one place in each quarter.

Time and place of polling.

7. As soon as possible after the publication of these rules, the Magistrate shall prepare a list of all the persons who paid any rate on houses or lands in each ward during the year ending on the 31st December next preceding. A copy of the list shall be exposed to view at the Magistrate's and at the Municipal Office; and a copy of so much of the list as relates to each quarter shall be affixed at some police-station or other accessible public place in each quarter of the town. All persons mentioned in the list who have paid the rates due from them up to the 31st December preceding shall be entitled to a vote in the election of Municipal Commissioners for the wards.

List of electors.

Number of voters

8. No rate-payer shall have a vote for more than one person or in more than one ward.

9. Votes shall be recorded by such polling clerks as may be appointed by the Chairman of the Commissioners. There shall be at least one polling clerk for each polling place, who shall stay at the polling place for such hours as the Magistrate may fix on the day of the poll. Each rate-payer who desires to record his vote shall attend at the polling place, and shall state his name and residence. The polling clerk shall verify from the list of voters of the quarter whether the intending voter is entitled to a vote for that quarter; and if he is so entitled, he shall record his vote against the rate-payer's name in the list of electors for the ward. The Election Sub-Committee of the Commissioners shall, acting under the Magistrate's instructions, make such arrangements as they see fit for identifying voters in cases of doubt; and in any case of doubt as to the validity of a vote, or as to the identity of a voter, the decision of the Sub-Committee and the Magistrate shall be final.
10. At sunset of the day of the poll, the poll shall be closed and the registers of the polling clerks shall be scrutinised by the Magistrate and the Election Sub-Committee, whose decision upon any doubt shall be final. The candidates who may stand highest on the poll of their quarter shall be declared to be duly elected.
11. The result of the poll shall be notified throughout the municipality, and shall be reported to Government for publication in the *Gazette*. The candidates declared to be duly elected shall hold office from the 1st April next succeeding the day of their election.
12. All costs incurred in carrying out the arrangements for the election shall be paid from Municipal Funds.

### HIGH COURT NOTICES.

Circular Order by the High Court of Judicature at Fort William in Bengal.

#### Circular Order No. 4

*Dated Calcutta, the 20th May 1875.*

MUCH inconvenience being caused by the unpunctual and irregular submission of Civil and Criminal Statements by Judicial Officers, the Court are pleased to intimate, for the guidance of Judicial Commissioners, Judges, and Magistrates, that the several Returns and Statements should be invariably despatched on or before the dates noted in respect of each—

HIGH COURT  
JUDICIAL DEPARTMENT  
(Civil and Criminal)

1. Monthly Statements on the 15th of the month following.
2. Quarterly Statements on the 20th of the month following the expiration of the quarter.
3. Annual Statements on the 15th February of the year following that to which they relate.

2. As regards the Administration Reports, the attention of District and Sessions Judges is drawn to the late Sudder Court's Circular Order No. 107, dated 25th November 1850, which has never been superseded, and which fixes the 1st February as the latest date for submission of the Annual Reports; that time the Court are now pleased to extend to the 15th February, by which date the Reports must be invariably despatched.

3. Subordinate Courts of all kinds should be strictly required to submit their Returns in time to enable their superiors to comply with this order.

4. Circular Order No. 26, dated 11th September 1867, paragraph 1, is superseded as regards the date of submission of Quarterly Statements.

#### Circular Order No. 5.

*Dated Calcutta, the 22nd May 1875.*

It having been brought to the notice of the High Court that, in suits against Government, or against an officer of Government in his official capacity, as well as in suits relating to wards of Court, plaintiffs are frequently drawn up with an inaccurate designation of the defendant, and an entire disregard of the requirements of the law as to

the manner in which he should be described, the attention of all Civil Courts subject to the control of the High Court is drawn to the subject.

2. In all suits against the Government, or one of its officers in his official capacity, the requirements of the Code of Civil Procedure (Act VIII of 1859), Section 20, Clause 6, should be carefully observed, and no other officer named, or description inserted, than what is there prescribed. And in the case of suits against a ward of Court, the defendant should be described in the manner set forth in Act IV (B.C.) of 1870, Section 69.

3. When the plaintiff contains a description of the defendant not in conformity with the law, the duty of the Court in which it is presented will be invariably to return it for amendment.

By order of the High Court,

W. M. SUTTER, Registrar.

### Sheriff's Office, the 16th June 1875.

NOTICE is hereby given that the Sixth Criminal Sessions of the year 1875, of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Monday, the twelfth day of July next, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. ## SUBORDINATE CIVIL SERVICE EXAMINATION, 1875.

*Calcutta, the 22nd June 1875.*

## RESOLUTION.

READ—

Letter No. 71, dated 1st May 1875, from the Superintendent of Subordinate Civil Service Examinations, reporting the result of the examination held in February and March last at Hooghly, Patna, Cuttack, and Sylhet.

Read again—

His report on the result of the examination held in 1874 and the orders of Government thereon.

Read also—

Resolution of this Government, in the General Department (Section B), dated 10th March last, intimating to certain Acting Deputy Magistrates and Deputy Collectors that their retention in the public service depends entirely on their passing the examination to which they are respectively liable.

In passing orders on the report of the result of the Native Civil Service Examination held in 1874, Sir Richard Temple directed that in future the standard of proficiency to be exacted at the next examination should be considerably raised, and it was subsequently arranged, in communication with Mr. Grimley, that candidates for the examination would be required to obtain two-thirds of the marks in each paper and subject to entitle them to be passed by the higher standard, and one-half marks in each paper and subject to be passed by the lower standard. The effect of this arrangement has been to reduce greatly the number of candidates who presented themselves for examination as well as the proportion among them, as compared with previous results, who succeeded in passing at the recent examination.

2. The examination was held in February and March last at Hooghly, Patna, Cuttack, and Sylhet. Of 92 candidates who obtained permission to appear, 78 only went through the examination, and of these two only have fully passed by the higher and five by the lower standard. On the special recommendation, however, of the Superintendent of the examination, the Lieutenant-Governor is pleased to declare that two other gentlemen, who already hold appointments in the Native Civil Service, viz. Moonshee Waziuddin Ahmad and Moonshee Dumreelal have passed by the higher grade, with this condition, however, in the case of the latter officer, that he shall pass in law within a year at the departmental examination to be held for Assistant Collectors and others.

3. Similarly, on the recommendation of the Superintendent of the examination, the Lieutenant-Governor is pleased to allow twelve other candidates, who are named in the list appended to this Resolution, to be passed conditionally on their passing a year hence in the subjects in which they have failed, but in the meantime their certificates will be withheld from them. On the recommendation of the Commissioner of Patna, His Honor is also pleased to allow Baboo Ramlal, junior canoeo of Chupra, who has passed by the lower standard in the vernacular and in practical surveying only, to retain his appointment on condition of his passing in the remaining subjects within one year.

4. Of two candidates who appeared at the special examination for admission to the Opium Department, one only, Mr. Gennoc, has passed. Similarly of those who appeared at the examination for Police appointments, Mr. Shiroore only has passed completely. Mr. Graham, however, who already holds an appointment as Acting Assistant Superintendent, has gained passing marks in law, and is, on the recommendation of the Superintendent of the examination, declared to have passed subject to his passing in the vernacular at the departmental examination within a year.

5. Of seven gentlemen holding appointments in the Opium Department who appeared for examination in the special subjects in which they have to pass under the rules of their department, Messrs. Windle, Ryves, and Mathews have now completely passed. Mr. Blair will still be subject to examination in surveying and Mr. Cumberland in Hindustani.

6. Adding to the balance brought forward from last year the sum of Rs. 2,562 realized in fees, the amount available to meet the expenses of the late examination is Rs. 3,414. Against this the Lieutenant-Governor has pleased to sanction an expenditure of Rs. 3,002, the details of which are shown in the statement appended to this Resolution. There will then remain a small balance to meet any claims which may be made for refunds, &c.

7. The total number of candidates who have passed at the Native Civil Service Examinations since their institution is as follows:—

	For the higher grade.	For the lower grade.	Total
1872 ..	19	..	19
1873 ..	104	83	187
1874 ..	76	125	201
1875 ..	6	15	21
Total ..	205	193	398

Of these, four are known to be dead and three have been transferred to Assam. Of the rest, 197 hold appointments, either substantive or acting, in the subordinate executive service. Of the remainder, some have refused appointments offered them and others hold situations in the Educational Department or in local offices, the pay of which is superior to that which they would draw in the subordinate executive service. How many exactly are so situated the papers before Government do not show. As a general result, however, it may be stated that about 50 passed candidates are awaiting higher grade and 120 lower grade appointments. Of those who have already been provided for, the appointments of 15 are of a temporary character only and have been sanctioned for some special purpose, on the attainment of which they will cease. In fairness, then, to the large number of candidates who are still unprovided with appointments, it is necessary that the conditions on which unpassed men have been allowed to hold appointments, and on which promotion has in some instances been granted, should be strictly enforced.

8. In the Resolution of 10th March last, a warning has already been conveyed to certain Acting Deputy Magistrates and Collectors that their retention in the public service depends entirely on their passing the examinations to which they are respectively liable, and a similar warning is now conveyed to officers in the inferior grades similarly situated. The Lieutenant-Governor observes that while some of these attended the examination, but failed, a considerable number never appeared at the examination at all. He therefore requests that Commissioners will, at an early date, report specially on the case of each officer serving under them who either attended the late examination and failed to pass, or who omitted to attend, stating at the same time what their recommendations may be with regard to them. The reports on passed candidates who may, according to rule, have been appointed on probation because they had not before served Government should now also be submitted. In some instances an extension of the period of probation has been permitted subject to further report at the end of six months. These reports are now due and should be submitted.

9. In view of the large number of passed candidates who have yet to be provided with appointments, the providing for whom is under the Lieutenant-Governor's special consideration, though he cannot make any promise, he has decided that it will not be necessary to hold another general examination until further notice. A special examination will, however, be held next year for such men as have been passed conditionally on the present occasion, and also for those who now are in Government employment conditionally on passing the examination.

10. The thanks of Government are due to Mr. Grimley and to the other gentlemen who were associated with him in conducting the examination.

R. L. MAXWELL,  
Off. Secy to the Govt. of Bengal.

## (First Publication.)

*Rules for the grant of ordinary tenure of arable land in the Western Dooree.*

1. The lands that will be generally available under these rules lie within that tract of country in the Western Dooree which extends in an easterly direction from the east bank of the river Teesta to the west bank of the river Sanku.

What lands will ordinarily be available

What lands will not ordinarily be available

2. The following lands will not ordinarily be available under these rules:—

- (a)—Lands which, by a notification in the *Calcutta Gazette*, are held to constitute a reserve for the supply of timber, fuel, grazing, or any other article of general and public consumption.
- (b)—Lands not included in the above category, but which now bear India-rubber trees or other valuable timber (such as sal, khair, chelownee, shoo, &c.) in compact blocks or patches.
- (c)—Lands in respect of which any person or persons, or any village community, possess rights of occupancy, or such other rights or privileges as would, in the opinion of the local Government, render it impolitic or unadvisable to grant such lands to any other person or persons.
- (d)—Lands lying within a distance of 100 feet on either side from the centre of any public road or thoroughfare. Provided that such road or thoroughfare shall have been constructed or shall be kept in repair, from public lands, and that it is borne on the list of the district roads of the district within which the land above mentioned lies.
- (e)—Lands which the local Government may at any time, by a notification in the *Calcutta Gazette*, expressly exempt from the operation of these rules.

3. Every person desirous of obtaining a grant of land under these rules shall, in person, present an application on stamped paper of the value of eight annas to the Tehsildar of the tehsil in which the land lies.

How and to whom application is to be made.

What the application is to specify

4. The application shall specify—

- (a)—The name, father's name, and address of the applicant.
- (b)—The area, situation, and boundaries of the land applied for, as far as they can be ascertained without a detailed survey.
- (c)—A statement of the particulars, if any, which may appear to the applicant to hinder the land applied for, or any part of it, within the exceptions mentioned in Rule 2. The application shall also state whether the land, or any part of it, is or has ever been cultivated in any manner.

5. Every lot applied for shall be compact and capable of being enclosed in a ring fence, and if any part of the land touches on a public road or navigable river, the length of such road or river frontage shall not exceed one-half the breadth of the lot applied for.

6. No application shall be received in respect of an area greater than 200 acres or less than 10 acres, and not more than this quantity of land shall be granted under these rules to any one lessee. But the Deputy Commissioner may grant larger areas under instructions from the Commissioner.

7. The Tehsildar shall require the applicant to pay in a sum of three annas an acre on the area applied for to cover cost of survey and inquiry. No further sum shall be required, and no refund will be made.

8. The Tehsildar shall then, in person or by an ameen, inspect the land and ascertain whether it is khas land and available under the above rules; and if it appear to be so, the ameen shall proceed to lay down the boundary and make a survey as follows.

9. The ameen shall fix the boundary, in accordance with the rules 5 and 6, as indicated by the applicant, and shall then clear it from end to end, and afterwards survey it with compass and chain, placing mounds of earth or stone not less than waist-high at every angle and at every point, where more than two lots or patches of waste or other properties meet. One mound shall be not less than six feet high, and shall be marked on the map as the base mark; two bearings of which, or bearing and distance of which from good points of reference, shall be recorded on the map.

10. The ameen shall prepare a map, which shall show—

- (a)—All natural features of the country lying within or on the boundaries fixed—such as thales, or the edge of forest, and also public pathways.
- (b)—Such features of the country lying outside the boundary as may serve to identify the land, and connect it with the revenue survey, or with any other map made of other lands in the neighbourhood.

11. The map shall be on the scale of 18 inches to the mile. If possible, the field-book shall be copied on the back of it. If not, a copy of the field-book shall be attached to or accompany the map. In submitting his report, the ameen shall state whether he had a clear line for his compass from end to end of the boundary, and whether the mounds are erected as ordered.

12. The tehsildar shall then report the case to the Deputy Commissioner or Sub-divisional Officer according to the tehsil in which the land lies, stating whether he is satisfied that the ameer's work has been properly done, and giving any further information which may be required.

13. The Deputy Commissioner or Sub-divisional Officer aforesaid, shall consider the report and finally pass orders granting or refusing a lease.

14. The order on the case, and on any objection decided on by the Deputy Commissioner or Sub-divisional Officer, shall be available to the Commissioner within one month.

15. On receipt of an order to grant a lease, the tehsildar shall deliver to the applicant a preliminary lease in the form annexed signed by the Deputy Commissioner or Sub-divisional Officer as aforesaid, together with a copy of the map, and shall place him in possession by planting a bamboo or in any other way locally acknowledged, and shall report delivery and registration of the tenant in a separate register of preliminary lease-takers.

16. The Deputy Commissioner may, in special cases of leases of 200 acres or less, and in all cases of leases of greater area, alter the terms of the lease so as to allow a lessee to manage his land by an authorized agent. In such case the agent must reside on or near to the land, and be provided with full legal power to act on behalf of the principal in all matters arising out of the land.

*Draft form of Preliminary Lease of Arable Land in the Western Douars*

1. A preliminary lease for five entire years of land in \_\_\_\_\_, granted by the \_\_\_\_\_ of \_\_\_\_\_ to \_\_\_\_\_

The lands covered by this lease are situated within the boundaries shown by the red lines in map No. \_\_\_\_\_, dated \_\_\_\_\_, and attached to this lease, and may be described as being bounded as follows:—

North East	South West
Their area is more or less _____, Takow.	_____ acres, and they are situated in Pergannah _____, in the tehsil of _____

2. The rights conveyed by this lease are heritable, but not otherwise transferable. After the expiry of this preliminary lease, no right shall be claimed otherwise than as expressly provided for hereinafter.

The rent to be paid shall be as follows:—

Year of entry (i.e. from actual date of entry to 31st March following) Nil.

1st full year (from 1st April following date of entry)

Nil.

2nd year

3 annas per acre

3rd "

6 "

4th "

9 "

5th "

12 "

The rent shall be paid to the tehsildar of \_\_\_\_\_ in the following instalments:—

3. The lessee shall reside himself on or near the lands covered by the lease. He shall keep all boundary lines or marks in good order and repair and clear of jungle, and shall within one year from the date of this preliminary lease, make such continuous boundary mark as he shall be required to do by a written order. If he fail to do so, the Deputy Commissioner or Sub-divisional Officer may cause the boundary to be made and recover the cost thereof as an arrear of rent, or he may call on the lessee to make it within a specified time on pain of forfeiture of the lease.

4. Any land covered by the lease which may at any time be required for a public purpose, may be taken up by Government free of cost on a reduction being made in the rent payable under the lease proportionate to the area taken by Government. But the value of any improvements or property thereon shall be paid to the lessee, and shall be assessed under the provision of the law in force for the time being for the acquisition of land for public purposes.

5. All rights to minerals or quarries of all kinds are reserved to Government.

6. No right of fishery, and no right to dam up or otherwise obstruct the passage of any stream, is given by this lease. A public right of way over twenty yards on either bank of every stream, available at any time of the year for local boat traffic, is reserved.

7. All *sissoo*, *sál*, and *chelownee*-trees, of a girth of over three feet at a distance of three feet from the ground, and all such *khair*-trees as may be fit to cut, are to be paid for by the lessee at the rates at which they may be valued by the Forest Department. All other trees may be disposed of by the lessee. The four kinds of trees above specified shall be counted and paid for previous to possession being given.

8. The Deputy Commissioner may at any time enter on, inspect, or measure the area under cultivation, and the lessee may at any time demand that such measurement be made. Provided that the expenses of any such inspection or measurement demanded by the lessee shall be paid by him as rent due. If after such inspection by any officer deputed for the purpose it shall appear that one-half of the total area held under the lease is occupied by homesteads or is cultivated or left fallow according to good husbandry, or otherwise fairly turned to account for agricultural purposes, the lessee shall be entitled to renewal of this lease for such further period as shall coincide with the termination of the settlement period then current, and thereafter to renewal for the period of each fresh settlement of the talook, subject always to the following conditions:—

(a)—The rent to be paid shall be fixed by the Deputy Commissioner on the order of Government on each occasion of renewal.

(b)—The title conveyed by the renewed lease shall be heritable and transferable, provided that no transfer shall be made of less than the whole, and that no transfer shall be valid as against the Government, but shall, on the contrary, be equivalent to a surrender of the lease, unless notification of the transfer shall have been given by the transferee to the Deputy Commissioner at the time of transfer, together with a fee of four annas per acre of the area leased.

(c)—In all other respects the conditions of the renewed lease shall be the same as those of the preliminary lease.

9. The rights and privileges conveyed by this lease, and by any renewed lease granted in accordance with its provisions, shall be liable to be forfeited on failure of the lessee to comply with any condition thereof.

10. If, before the expiration of this preliminary lease, no application for a renewal of the lease shall have been made in accordance with the above provisions, the lessee may be allowed to hold on as a tenant-at-will, but not otherwise, until other arrangements may have been made by the Deputy Commissioner.

11. The lessee may sublet any part of the land covered by this lease on such terms as he pleases, provided that he gives the same promise of renewal of the tenure to his sub-tenant on condition of bringing his land into cultivation as is given to himself by this lease. The rent to be paid on renewal shall be determined on the application of either party by the Deputy Commissioner, who has the power to fix equitable rates of rent as he has, under Sections 76 to 79 of Act X of 1859, to fix terms of patah.

12. No sub-tenant under the lessee shall sublet any part of his land on pain of forfeiture of his tenure, but this rule and the last shall not be held to prevent the employment of *adhmars*, *prohars*, or other laborers supplied with seed and paid by giving them half the crop. The Government reserve power to make rules to be observed by the lessee and his tenants for the purpose of carrying out the provisions of this and the last preceding clause; and the lessee agrees to and to sign in such rules when published for general observance and to hold the land subject to such rules.

#### SEPARATE REVENUE—POST OFFICE.

No. 1462.—*The 11th June 1875.*—Notice is hereby given that on and after the 1st July 1875 parcels posted in India for transmission to the United Kingdom by the Overland Parcel Post will be chargeable at the rate of 8 annas per lb (40 tolas), fractions of a lb being charged as a whole lb in lieu of the present rate of 3 annas per 10 tolas. Full prepayment will, as heretofore, be compulsory. From the same date revised arrangements for the transmission of parcels from the United Kingdom will come into force, the main feature of the new arrangement being the reduction of the rate of charge between London and the place of destination in India from 1s. 4d. to 1s. per lb.

Notice is also given that on and after the same date (1st July 1875) parcels prepaid at the same rate (8 annas per lb) will be received for transmission to any place in Germany, or to any place in the following countries served through Germany, viz. Denmark, Sweden, Norway, Switzerland, France, the Netherlands, and Belgium. In the case of parcels addressed to Germany, the above-mentioned prepayment will carry them to destination without any additional charge; and in the case of those addressed to the other countries mentioned, there will be charged on delivery an additional local rate representing the cost of transit beyond the German frontier. Simultaneously with the commencement of the transmission of parcels from India, parcels will be received for transmission to India by the Post Offices at Germany and the several countries served through Germany as enumerated above.

The following detailed rules respecting the exchange of parcels with the United Kingdom and the foreign countries mentioned will from the 1st July be substituted for the regulations given at pages 57 to 59 of the Postal Guide.—

*Overland Parcel Post.*

(1).—Parcels are received at any Post Office in India under the conditions and rates of charge mentioned below for transmission to the following countries, viz :—

Countries	Rate of charge per lb or fraction thereof. Prepayment compulsory.	Remarks respecting special conditions, &c., applicable to particular countries
	<b>Annas</b>	
United Kingdom ..	8	The prepayment carries the parcel as far as London, any additional charge which may become due on an account of British custom duty or carriage beyond London being realised from the addressee. The attention of the public is invited to the fact that the British Post Office has no connection with the Overland Parcel Post; all arrangements out of India are made by the Peninsular and Oriental Steam Navigation Company, and inquiries proceeding from the United Kingdom should be addressed to that Company's Office, 122, Leadenhall Street, London, E.C. The British Post Office, however, has consented to exhibit in every Post Office of the United Kingdom a notice containing information on the subject of the Indian Parcel Post.
Germany ..	8	The prepayment carries the parcel to destination. Should any custom duty become due, the amount will be charged on delivery. See also Rule 9, respecting compensation for damage or loss.
Denmark ..	8	The prepayment carries the parcel to the limit of German conveyance, a separate charge being made on delivery for conveyance beyond the German frontier, as well as for custom duty, should any become due. See also Rule 9, respecting compensation for damage or loss.
Sweden Norway Switzerland	8	The prepayment carries the parcel to the limit of German conveyance, a separate charge being made on delivery for conveyance beyond the German frontier, as well as for custom duty, should any become due. <i>From Rule 3 it will be seen that there must be also a second or duplicate declaration of contents and value. See also Rule 9, respecting compensation for damage or loss.</i>
France The Netherlands (Holland) Belgium	8	The prepayment carries the parcel to the limit of German conveyance, a separate charge being made on delivery for conveyance beyond the German frontier, as well as for custom duty, should any become due. <i>From Rule 3 it will be seen that there must be also a second or duplicate declaration of contents and value, and that the second or duplicate declaration should, if possible, be written in the French language. See also Rule 9, respecting compensation for damage or loss.</i>

(2).—Every parcel should be securely packed in a closed cover or case, and should bear the name and address of the person in the United Kingdom or foreign country for whom it is intended.

*N.B.*—The public are specially warned against the use of flimsy covers for articles transmitted by the parcel post. Heavy articles are sometimes sent with only paper covering insecurely tied with string, friction in transit detaches this cover, and damage and loss ensue. A covering of stout cloth or wax cloth, sewn at the edges, is recommended, but if the contents are liable to suffer from pressure, boxes of wood or tin should be used.

(3).—Every parcel should be accompanied by a separate paper headed with the address of the parcel and containing a declaration of its contents and value under the signature of the sender. Below the signature the address of the sender should be given.

For the parcels addressed to—

The United Kingdom ..

Germany ..

Denmark ..

Sweden ..

Norway ..

Switzerland ..

Only one declaration as above described is required.

A second or duplicate declaration is also required.

A second or duplicate declaration is also required, and the sender is requested to write the second or duplicate declaration, if possible, in the French language. Should he be unable to do so, the Bombay Post Office will attach to the second or duplicate English declaration a French rendering thereof, but the sender is warned of the delay which may result from this.

France ..

The Netherlands (Holland) ..

Belgium ..

It is not deemed necessary to require exact adherence to any particular form of declaration, but the following specimen form may be useful to the senders of parcels:—

*Specimen form of Declaration.*

(4).—The parcel so addressed and the separate paper or papers above referred to should then be enclosed in a *substantial outer cover*. This outer cover should be superscribed and addressed as follows:—

**Overland Parcel Post.**

To

The Post Master, Bombay.

(5).—The parcel so made up must be *fully prepaid by means of postage stamps at the rate of 8 annas per lb (40 toluhs) or fraction of a lb*, care being taken that the stamps adhere firmly to the cover.

(6).—The parcel so made up must not exceed 50lb (25 seers) in weight, or 2 feet in length by 1 foot in breadth or depth. It will be received at any Post Office at the hours fixed for the receipt of ordinary baggage parcels, the usual receipt being given to the sender without reference to the mode of packing prescribed in the case of inland parcels for which receipts are claimed.

(7).—On arrival at Bombay, the Post Master will take off the outer covering, and forward the inside parcel and the accompanying declaration or declarations to the country at inside address.

(8).—It is forbidden to send in these parcels opium or any liquid or any substance or material of a dangerous, damaging, or offensive kind.

(9).—In the case of parcels for or from Germany and the foreign countries served through Germany, compensation will be given by the reasonable Post Office to the sender for loss or damage sustained in transit (cases of sea risk or of fire, major or of the gross negligence of the sender in respect of packing or otherwise excepted). Such compensation will in no case exceed 1½ rupees for each lb weight or fraction thereof in respect of parcels forwarded from India, and 3 marks for each 500 grammes or fraction thereof in respect of parcels from Germany. Should the sender desire it, the compensation will be paid to the addressee instead of to himself.

*The 2nd June 1875.*—Whereas a plan was submitted under Section 2 of Act V (B.C.) of 1873 for extending gas-lighting to certain portions of the town of Howrah; as published in the Government Notification dated 1st May 1875, and whereas no objections have been raised to, or any alterations suggested in, such plan within one month after a translation of it in the vernacular had been published in the town aforesaid, the Lieutenant-Governor is pleased to accord his sanction to the said plan, which is described below:—

1. The portions of the town to which it is proposed to extend the lighting are that portion of the Grand Trunk road which lies between Kemkistopore Ghaut Road and Bishop's College Road, Seebpore Ghaut Road and Ghosery Road. The total length of these roads is 2½ miles, and the number of lamps proposed to be erected in them is 75.

2. The total valuation of buildings and lands situated in these streets is Rs. 1,81,363, and a rate of 11 per cent. would yield an income of Rs. 4,840 per annum, which gives an average of Rs. 64 per lamp for defraying the cost of lighting. A communication has been received from the Oriental Gas Company agreeing to accept this sum in payment for supplying gas.

3. The cost of purchasing and erecting the lamps is estimated at Rs. 4,125, and this sum the Municipal Commissioners propose to provide from the general fund during the current official year.

4. Notices of vacancies on the Committee will be issued each year in January. Any two rate-payers may nominate a candidate, and may inform the Magistrate of his candidature on any date not later than the last day of February. The Magistrate shall ascertain if the candidate accepts the nomination and is qualified under the rules; and if so, he shall notify such candidature at the cutcherry and at one or more police-stations in the town, as he may see fit. Such notification shall state the name, residence, and qualification of the candidate.

*Notice of candidature*

5. If any rate-payer object to the eligibility of any candidate, he may on some date, not later than the 6th March, notify such objection in writing to the Magistrate, who shall hear and finally decide any question of eligibility. On the 10th March the final list of candidates shall be notified at the cutcherry and in at least one conspicuous place in each quarter.

*Objection against candidature*

6. The Municipal Commissioners shall appoint a Sub-Committee of three of their number to assist the Magistrate in carrying out the following rules regarding election.

*Time and place of polling*

7. As soon as possible after the publication of these rules, the Magistrate shall prepare a list of all the persons who paid any rate on houses or lands in each ward during the year ending on the 31st December next preceding. A copy of the list shall be exposed to view at the Magistrate's and at the Municipal Office; and a copy of so much of the list as relates to each quarter shall be affixed at some police-station or other accessible public place in each quarter of the town. All persons mentioned in the list who have paid the rates due from them up to the 31st December preceding shall be entitled to a vote in the election of Municipal Commissioners for the wards.

*List of electors.*

8. No rate-payer shall have a vote for more than one person or in more than one ward.

*Number of votes*

9. Votes shall be recorded by such polling clerks as may be appointed by the Chairman of the Commissioners. There shall be at least one polling clerk for each polling place, who shall stay at the polling place for such hours as the Magistrate may fix on the day of the poll. Each rate-payer who desires to record his vote shall attend at the polling place, and shall state his name and residence. The polling clerk shall verify from the list of voters of the quarter whether the intending voter is entitled to a vote for that quarter; and if he is so entitled, he shall record his vote against the rate-payer's name in the list of electors for the ward.

*Recording of votes*

The Election Sub-Committee of the Commissioners shall, acting under the Magistrate's instructions, make such arrangements as they see fit for identifying voters in cases of doubt; and in any case of doubt as to the validity of a vote, or as to the identity of a voter, the decision of the Sub-Committee and the Magistrate shall be final.

*Identification of voters.*

10. At sunset of the day of the poll, the poll shall be closed and the registers of the polling clerks shall be scrutinized by the Magistrate and the Election Sub-Committee, whose decision upon any doubtful point shall be final. The candidates who may stand highest on the poll of their quarter shall be declared to be duly elected.

11. The result of the poll shall be notified throughout the municipality, and shall be reported to Government for publication in this Gazette. The candidates declared to be duly elected shall hold office from the 1st April next succeeding the day of their election.

Cost of municipal elections

12. All costs incurred in carrying out the arrangements for the election shall be paid from Municipal Funds.

## DISTRICT ROAD FUND

### NOTIFICATION

No. 267

The 18th June 1875

UNDER Section 89 of Act X of 1871, the following annual accounts and reports of the District Road Committees of Burdwan, Bankura, Berohoom, Midnapore, and Hooghly with Howrah, of works done and in progress during the past cess year 1873-74, together with the review thereon by the Commissioner of the Burdwan Division, are published for general information.

G. F. E. S. NRIEL, *Captain, M.C.*,  
Offg. Asst. Secy. to the Govt. of Bengal, P. W. D.

No. 626, dated Burdwan, the 23rd January 1875.

From—A. WHEELER, Esq, Vice-Chairman, District Road Committee, Burdwan.  
To—The Commissioner of the Burdwan Division.

In continuation of this Office No. 601, dated 24th ultimo, and with reference to your Circular No. 183, dated 19th idem, I have the honor to submit the following report on works carried out from the District Road Fund during the past cess year 1873-74, as desired by the Chairman, in camp.

2. The non-official members of the Committee took very little interest in the discharge of their duties. There have been five meetings of the Commissioners during the year under report, at which no more than what was required to form a quorum attended.

3. No cess under Act X of 1871 has been levied in the district, owing to the scarcity. The road cess collections on account of estates borne on the rent roll of this district, but situated within the jurisdictions of other districts, have been shown in detail in No. 6, part II, of the annual accounts already submitted.

4. The actual receipts and expenditure of the year have greatly exceeded the sanctioned budget estimates in consequence of relief works. The details of receipts and disbursements have been given in the annual accounts. The relief operations were undertaken and carried out satisfactorily throughout the district through the energy and supervision of Mr. Nightingale, the Executive Engineer of this district, and the sub-divisional officers of Cutwa, Rauccegunge, Bood-wood, and Cuna.

5. The relief works were paid for partly in cash and partly in Government grain. The amounts spent in wages in cash up to 30th September 1874 have been shown in the annual accounts, and those spent in wages and grains will be adjusted during the current year, as per Controller of Public Works Accounts' No. 13601, dated 30th October 1874.

6. Out of the total amount of expenditure, Rs. 39,123-1-5 and Rs. 1,57,867-1-6, on original works and repairs respectively, Rs. 16,554-1-7 and Rs. 1,43,108-4-6 were spent by the Department Public Works, and the remainder, Rs. 13,869-13-1 and Rs. 12,778-13, by the sub-divisional officers and others.

The following works were executed during the year by the Public Works Department and others:—

### UNDER THE EXECUTIVE ENGINEER, BURDWAN.

*Original Works*—Works sanctioned in 1872-73, but not completed until 1873-74. Construction of culverts on the road from Goushikarrah railway station to the bazar. Expenditure Rs. 163-12.—This work was sanctioned on the 25th July 1873 to cost Rs. 173, but the work was not completed until June 1874, owing to a dispute about the ownership of the land over which this road runs.

*Repairing and metalling the road from Goushikarrah railway station to the bazar.* Expenditure Rs. 2,332-3.—This work was also sanctioned in July 1873, and for the reason above stated was not completed till July 1874.

*Collecting, spreading, and consolidating metal, and raising earthen sides of the Cuna road.* Expenditure Rs. 5,034-6.—The estimate, amounting to Rs. 6,476, was sanctioned in June 1873, and the work completed in October 1873.

*Constructing culverts on the Burdwan to Cuttwa road.* Expenditure Rs. 867-1-9.—An estimate, amounting to Rs. 960, was sanctioned in June 1873, but owing to no bricks having been available, the work had to be postponed until the cold season, and was completed in March 1874.

*Metalling the road from Burdwan to Sudderghat.* Expenditure Rs. 3,115-8-6.—The estimate, amounting to Rs. 3,276, was sanctioned in August 1873, and the work was completed in December 1873.

*Constructing six culverts on the Burdwan to Jehanabad road.* Expenditure Rs. 1,041.—The estimate was sanctioned in May 1873, and the work was partly done in June and July, but owing to there not being sufficient quantity of bricks the work had to be postponed until the cold season, and the culverts were completed in February 1874.

*Constructing out-offices for the inspection bungalow at Sonamohy, i.e. erecting a cook-room, stables, and house for the chowkidar, and providing skylight for the centre room of the bungalow.* Expenditure Rs. 313-0-0.—Two estimates—one for Rs. 251, and one for Rs. 132—were sanctioned for the purpose in June and December 1873 respectively. The works had to be postponed for want of bricks, and were completed in August 1874.

#### WORKS SANCTIONED IN 1873.

*Constructing an unmetalled road from Bancher railway station to village Buddipore.* Expenditure Rs. 4,539-5-4.—The zemindars of Buddipore subscribed Rs. 5,000 for the above road. Rs. 5,035 were advanced to the Public Works Department during February 1874. The whole of the earth-work has been completed, and the masonry of the bridge over the Juma nullah has been built up to level of top of foundations. Several culverts also have been constructed.

*Constructing the road from Rajband railway station to village Dimpore.* Expenditure Rs. 1,198-4.—This work was sanctioned for Rs. 1,218 on the 29th May 1874, and commenced in June 1874. Earth-work, 51,270 cubic feet, has been executed and the work completed.

*Constructing culverts on the road from Goshkharah to Nittanvndapore.* Expenditure Rs. 182-2.—The work was sanctioned on the 23rd February 1874 for Rs. 200. Two irrigation culverts were commenced and completed during June 1874.

*Collecting metal for the Cuttwa road.* Expenditure Rs. 5,034-3.—Estimates for collecting and spreading metal and raising earthen sides of the above road have been completed.

#### REPAIRS SANCTIONED IN 1872-73, BUT COMPLETED IN 1873-74.

*Repairing the road from Banderhonda to Sonamohy, being part of Burdwan to Midnapore road.* Expenditure Rs. 594-12-6.—An estimate for Rs. 1,197 was sanctioned in June 1873. Metal was collected on the 22nd, 25th, and 26th miles, and spreading and consolidating, with repairs to earthen sides and slopes, were all finished in January 1874.

*Spreading metal on the road from Panaghor to Cuttawapore.* Expenditure Rs. 371-1-3.—An estimate for Rs. 1,068 was sanctioned in May 1873. Spreading and consolidating metal from 1st to 8rd and from 5th to 15th mile, with earthen sides to the 1st, 5th to 7th, and 9th to 12th miles, were all completed in January 1874.

\* *Turfing the earthen sides of the above road.* Rs. 140-5-7 spent.

*Repairing the road from Panaghor to Ellanbazar.* Rs. 320-10 spent.—An estimate for Rs. 854 was sanctioned in May 1873. Spreading and consolidating metal from 7th to 14th mile. No. 87, dated the 6th February 1875.

From—C. T. BUCKLAND, Esq., Commissioner of the Bardwan Division,  
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the annual account of the District Road Fund of Bardwan for the cess year 1873-74, together with copy of a letter, No. 626, of the 23rd January, from the Vice-Chairman of the District Road Committee, Bardwan, reporting on the progress made in the execution of works undertaken during the year under report.

2. The total income of the district amounts to Rs. 2,32,731-13-5, including Rs. 2,65 0-0 grant-in-aid from "Provincial Reserve Fund" and the expenditure Rs. 2,09,359-14-0, leaving a balance of Rs. 23,371-14-4 at the close of the year.

3. It will be seen from the details of Establishment given in Part II of the account, that the pay of the head clerk under the Road Cess Deputy Collector varied from Rs. 48 to 54 in the course of the year. The following explanation is given by the Vice-Chairman for these variations:—

1st.—Rs. 4 were drawn by the head clerk during the months of January and February 1874 in excess of his pay, Rs. 52, and that sum was deducted from his salary for March. Hence Rs. 48 were drawn by him in April.

2nd.—The head clerk having been appointed Sub-Deputy Collector in the relief department from 28th to 22nd April, his substitute drew Rs. 25 for that period at the minimum rate of Rs. 30 per mensem, and the permanent incumbent received Rs. 26 for the periods from 1st to 7th and 23rd to 30th April 1874, at the rate of Rs. 52. The pay of the head clerk in May was therefore Rs. 51.

3rd.—One rupee was drawn by the head clerk in excess of the sanctioned scale of Rs. 52 in the month of July, which was refunded in August 1874 when he was entitled to Rs. 54, therefore his pay for two months was drawn at the rate of Rs. 53.

4. The amount shown against establishment in the annual account does not tally with the aggregate of the sums entered against that item in the four quarterly returns for the year 1873-74. This is due to the fact that the sum of Rs. 50, on account of the salary of a clerk under the Executive Engineer, was shown under the head "Establishment for collection of revenue" in the 1st and 2nd quarterly returns, but was subsequently charged to "Establishment on works" under the instructions of the Controller of Public Works Accounts.

No. 100T, dated Camp Bishnupore, the 22nd December 1874.

From—W. R. JAMNIE, Esq., Offg. Magistrate of Bankura,  
To—The Commissioner of the Bardwan Division.

I HAVE the honor to submit herewith the annual return of income and expenditure of the District Road Fund of the district of Bankura from 1st October 1873 to 30th September 1874.

2. From the statement it will appear that besides ordinary repairs to existing roads and bridges, many new lines of roads were opened in different parts of the district, especially in that part of Thana Gungajulghatti known by the name of Pergannah Moheshra, for the purpose of giving employment to the numerous laborers who were reduced to distress by the failure of the crops.

3. The following is the description of the different original works executed during the year under report.

1. The first of these is the road from Gungajulghatti to Saltora, a distance of about fourteen miles.

5. Since the transfer of the pergannah of Moheshra from the district of Manbhum to this district, and the establishment of an outpost at Saltora, the centre of the tract, I had it in contemplation to open a line of communication between the outpost and Thana Gungajulghatti, to which it belongs, and the necessity for opening relief works in that quarter afforded me an opportunity for carrying out this project. This road has been metalled and nearly all bridged, and has been constructed at a cost of Rs. 14,671.

6. The second, but first in importance, is the road from Morooloo to Mejia, a distance of about fifteen miles. It affords facilities for communication between Ranerghunge and Porelia and our police outpost of Saltora and its adjoining villages of Morooloo and others. This road is metalled and bridged except in one place.

7. The third is the road from Rajgram to Indpore, a distance of seven miles, and is a continuation of the Porelia road to Murabazar, a place of great note in the district of Manbhum.

8. A constant traffic is carried on on this road. It is towards the south of the district, and is both metalled and bridged.

9. The fourth is the road from Dhalpore to Moheshra, the other extremity of this district towards the south-west, a distance of nine miles, where it joins the Manbhum portion of the road. The latter, when complete, will afford great facilities for communication and trade between Bankura and Manbhum. This road is metalled, but not bridged; temporary wooden bridges having been built for wheeled traffic.

10 The road from Dullubpore on the Gangajulghatti road to Meliara, a distance of six and a half miles, is metalled and partly bridged.

11 A new line of road from Bankoora to Taldangra, a distance of fifteen miles, has been opened. The road is metalled, but not bridged.

12 A road from Buda to Taldangra, a distance of eleven miles, has also been constructed. This road has been worked under two estimates: the first only provided for repairing the existing 12 feet cart track, the other for widening the road to 20 feet and metalling it. The earth-work is complete, and the collection of metal is half done. The consolidation for the last three miles has also been finished. This road greatly facilitated communication between the Buda thana and the outpost of Taldangra.

13 The road from Burjora to Meliara, five and a half miles in length, is but a continuation of the road from Dullubpore to Meliara. This would afford facilities of communication between the outpost of Burjora and Meliara, a place of note and the seat of a *zamindar*. Earth-work and metalling have been finished.

14 The road from Meliara to Mejia is nine miles in length, and is a continuation of the above line of road. As this road is exposed to the back-waters of the Damooda, it was not considered safe to incur charges for completing the earth-work on the first two miles until the exact extent of damage which is likely to be done to the road is known.

15 The road from Behalor to Burjora and on to the Damooda, a distance of 11½ miles, is intended to be a railway feeder to the Hoogapur Railway Station, and is the shortest journey between this district and Calcutta. There is a break of one mile and a half to complete the line of road to the above station. As this part lies within the Burdwan district, the Magistrate of that district will, I hope, take an early opportunity of completing it. Earth-work and collection of metal have been finished, and the work of consolidation of metal will be taken in hand hereafter.

16 The roads from Chatna to Susunia, a distance of six miles; Susunia to Kusthola, a distance of eight miles, and Kusthola to Mejia, a distance of seven miles, though treated as three different roads, are, in fact, one line of road from Chatna to Mejia. This road affords the readiest means of communication between Chatna and Mejia. The earth-work and metalling of the first portion (six miles) have been completed. The estimates for the second and third roads provided only for earth-work and collection of metal, which have nearly been completed. I would here observe that a sum of Rs. 1,000 was given as a donation by Mr. Reusa, proprietor of the Susunia stone quarries, for the construction of the road from Susunia to Mejia via Kusthola, as this road will be of great use to him in carrying stone to Burdwan and other places.

17 The last, though not the least in importance, is the road from Joyrampur to Bishenpur, which is the continuation of the line of the Pan-ghur road, a railway feeder. Earth-work has been done for about three miles of the road only, as the work was taken in hand very lately.

18 Nothing of note in the shape of repairs was done to any of the existing roads and bridges further than ordinary repairs, which have put the roads, &c., in good order.

19 The total amount expended during the year in carrying out the above works is Rs. 82,268-1-9, of which Rs. 67,300-13 were expended in executing new roads, &c., and Rs. 14,968-4-9 in repairs. Of the total sum, Rs. 6,250 were paid in grain and Rs. 76,019-1-9 in cash.

20 Besides the above sum, Rs. 65,372-12-9, including Rs. 43,495-9-6 in grain, have since been paid for works done during the year.

21 The ferry boats on the Damooda at Mejia, on the road from Bankoora to Raneesgunge, worked pretty well during the year, but those of Duikenaar and Gundesauri did very badly, as usual. Better arrangements will be made during the current year.

22 The toll-gates on the several roads of the district were managed by their farmers in a satisfactory manner during the year under report.

23 The urgency of opening different new lines of roads in the district to afford relief to laborers was met by the appointment of a separate Executive Engineer for this district, and Mr. W. B. Christie was appointed to open and supervise the above described numerous relief works. He planned out and surveyed different new roads as promptly as there was occasion for them.

24 The additional staff entertained by me for executing these relief works were two superintendents,—the services of one of whom was required throughout the period, and one was employed for a couple of months only.

25 It is worthy of note here that all these works, though carried on for affording relief, were executed at normal rates.

26 Taking into consideration the total cost, Rs. 1,47,641-14-8, at which these numerous works have been completed, coupled with the fact that they have so much improved the means of communication of the district, it will appear that our money has been spent to the greatest advantage.

27 Most of the members of the Committee have taken great interest in their work during the year under report.

No. 105, dated the 22nd February 1875.

From—C. T. BUCKLAND, Esq., Commissioner of the Burdwan Division,  
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the annual account of the District Road Fund of Bankoora for the cess year 1873-74, together with copy of a letter, No. 1007, of the 22nd December, from the Magistrate of Bankoora, reporting on the progress made in the execution of works undertaken during the year under report.

2. The total income of the district amounts to Rs. 1,02,787-0-7, and the expenditure Rs. 85,671-6-8, leaving a balance of Rs. 17,116-1-2. There is a difference of Rs. 0-7-3 in the actual balance, which is owing to certain advances not having been adjusted yet by the treasury officer.

3. It will be seen from the expenditure side of the statement that Rs. 78,021-7-0 were expended on road works, viz. Rs. 63,062-2-3 in original works and Rs. 14,959-4-7 in repairs, but the Magistrate, in paragraph 19 of his letter, states that Rs. 82,269-1-9 were expended in the construction of works, viz. Rs. 67,398-13-0 in original works and Rs. 14,959-4-9 in repairs. The difference of Rs. 4,217-10-9 is attributed to the fact that Rs. 3,414-10-3, expended in the purchase of tools, and Rs. 833-0-6, in the payment of establishment for supervising relief works, were treated as part of the original work.

4. The figures shown against original works and repairs in the annual account do not correspond with the total of the entries under those heads in the four quarterly returns. The difference is of Rs. 1,507-14-3, which is stated to be due to the above sum, which was expended in the construction of the Beersungpore road, having been inadvertently shown under the head of repairs in the quarterly returns.

No. 121, dated Soory, the 16th November 1874.

From—R. D. HIXM, Esq., Officiating Magistrate and Chairman, District Road Committee, Beerbhoom,  
To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit herewith the annual accounts of the district works of this district for the cess year 1873-74, together with a report of the works undertaken and the progress made during the year under report, prepared by the Executive Engineer of Beerbhoom. The following are the only works which call for remark—

Work No. I.—The culverts on the Ahmedpore and Lughotta road, twenty in number, were completed during the current year. The floods during the year, viz. on 26th September and 15th October, were extraordinarily high, but the culverts have stood very well. The embankment on this road was constructed in the year 1866, and the crest of the embankment was supposed to be one foot above the highest water mark of 1864. Subsequently, however, the height was reduced by one foot.

2. It is not easily conceivable that the water level rises so high in this district from a cursory inspection of the country, nevertheless this embankment, which appears so high, has been breached in three places, and for more than a mile the water level was only two or three inches below the crest of the embankment. It is to be hoped that during the year funds will be forthcoming for constructing four additional culverts on this road.

Work No. II.—Extending the bridge over the Agas Kandar khali from 3 spans of 20 feet to 5 spans of 20 feet. There is still a tendency in this bridge and in two others on the Kiambazar road to scour between the piers. Broken bricks filled in between the piers are easily transported by the current. The Railway Company are heavy holders of stone, which are also constantly re-packed.

3. In a separate statement attached has been given the cost of the famine relief work in cash and in grain. The progress upon these works is given below approximately. The culverts on these roads were not undertaken during the current year:—

BEERBHOOM,  
The 16th November 1874.

B. D. HINE,  
Offg. Magte. and Chairman, District Road Committee.

No. 561, dated the 18th December 1874.

From—C. T. BUCKLAND, Esq., Commissioner of the Burdwan Division,  
To—The Secretary to the Government of Bengal, Public Works Department.

I have the honor to submit the annual account of the District Road Fund of Beerbhoom for the year 1873-74, together with copy of a letter, No. 121, of the 16th November, from the Chairman of the District Road Committee, Beerbhoom, reporting on the progress made in the execution of works undertaken during the year under report.

2. The total income of the district amounts to Rs. 1,30,808-6-7, and the expenditure Rs. 1,34,985-7-10, exceeding the income by Rs. 4,164-16-8. The circumstances under which this excess expenditure was incurred are given below.

3. The Magistrate of Beerbhoom having reported on the 18th May 1874 that the Mullapoor road was almost complete, and that it was absolutely necessary to open another relief work in that locality to keep the laboring classes of the Montemour jurisdiction, an especially distressed tract, from starvation, I, in anticipation of the sanction of Government, authorized him, on the 27th May, to draw from the treasury the requisite amount for the commencement of the road from Kamarara to Andee, and two other works proposed by him to give employment to the laborers near Poozunderpore and Soolapoor, if the funds at his disposal had nearly been exhausted, or were likely to be exhausted shortly.

4. On the 26th June an application was made to Government for a further grant of Rs. 35,000 to the district of Beerbhoom; but the Government, in its No. 3449—S.R., dated 18th July 1874, declined to sanction any further grant, stating that as grain has been ordered to be given to the relief laborers, the cash outgoing ought to be very small; and the unexpended balance then in the hand of the Magistrate would be sufficient to pay for special supervising establishment, and other expenses which cannot be met by grain payments. But as the commencement of these works was considered by the Magistrate to be urgently necessary, he drew the sum of Rs. 4,184-15-3 in excess of the income of the district.

\*5. The total of the annual accounts accords exactly with the aggregate of the quarterly extracts for 1873-74.

From—A. W. COCHRAN, Esq., Vice-Chairman of the District Road Committee, Midnapore,

To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit the following report on works executed on the several local roads of this district during the cess year 1873-74, and of those proposed to be undertaken during the current year 1874-75.

2. The annual accounts prescribed by Government (circular No. 1952, of the 24th September 1872, are also annexed.

3. Before I treat of each road, I shall in the first place mention that the works on almost all the roads were not done according to the budget estimate submitted to Government with this Office No. 209, of the 13th August 1873. With the exception of a few bridges, almost all the masonry work provided in the estimate was not taken in hand, and in order to provide work to the laborers, the sums estimated for these works were spent chiefly on earth-work, dressing, &c., executed in constructing new haes of roads.

4. The Road Cess Act was extended to this district only on the 1st August 1874, by Government Notification dated 7th July (*vide Calcutta Gazette* of the 8th July 1874), and the District Road Committee submit it is not necessary that the annual reports and returns of work executed prior to that date should be prepared in strict observance of the provisions of the Road Cess Act.

5. The total sum at the disposal of the committee during the year under report, including the Government grant and the unexpended balance of the preceding year in the hands of the District Engineer, &c., was Rs. 96,962, as detailed in Parts I and II of the annual returns. Of this amount Rs. 92,098-0-6½ were spent during the year, viz. Rs. 50,077-4-6 by the District Engineer and Rs. 42,020-12-½ by civil officers.

6. The District Engineer has only a few roads under his charge, viz—  
Road No. XX from Ghatal to Chunderkona, and part of roads No. V from Chunderkona to Gowaltore, and No. VI Burdwan road. The Vice-Chairman who is the Joint-Magistrate, has all the remainder. Relief work having to be provided on the roads, the ordinary rates have necessarily been exceeded. Several new roads, such as—

- Road No. XXII from Kheerpoys to Buddengunge,
- " " XXIII from Chuttergunge to Ramjeebunpore,
- " " XXIV from Kespore to Narajole,
- " " XXV from Binpore to Silda,
- " " XXVI from Dahijuri to Laligurh.
- " " XXVII from Binpore to Ramgurh,
- " " XXVIII from Ramgurh to Laligurh,
- " " XXIX from Sugri to Jhangram,
- " " XXX from Gurbetta to Koyapeti,
- " " XXXI from Satpati to Kantapahari,
- " " XXXII from Chunderkona to Kowapore.
- " " XXXIII from Satpati to Gowaltore,
- " " XXXIV from Noodah to Narajole,

have been made principally to provide labor for men who wanted it. The damage done by the cyclone to the roads in the south and east has been considerable, and the budget estimates have been considerably changed.

7. After the above general remarks, I now proceed to report on the work done during the past cess year and proposed to be carried out during the ensuing year 1874-75:—

Road No. X, from Gurbetta to Ramgurh.—This road is situated in the Gurbetta or western sub-division of the district. It leaves the imperial road to Rancegunge at Gurbetta, and terminates at Ramgurh, and is 26 miles in length.

During the year under report, surface repairs to the road in places where necessary were given. A large wooden bridge over the Tamul River was thoroughly repaired and earth-work in the embankment of the road where needed was also executed. A portion of the road, about 500 feet in length, which was very heavy with mud during the rainy season, was metalled with laterite. The total cost incurred in carrying out these works was Rs. 866-1.

A sum of Rs. 500 was provided in the budget for the year 1873-74 for the construction of a pucca culvert of 2 spans each of 8 feet over a khall near Ramguri, but as almost all the masonry work provided in the budget could not be taken in hand this year, and the sums estimated for the work were spent on earth-work to supply work to the labourers, the construction of this bridge was also postponed.

In the budget for the year 1874-75 a sum of Rs. 500 has been provided simply for the ordinary repairs of the road and its existing bridges. No new work is to be undertaken on the road. The estimate has been vitiated by the cyclone since, and some Rs. 1,580 at least will be required to restore the road to proper repairs.

*Road No. II, from Lodhasye to Binpore.*—This road is one of the most important lines of communication within the jungle mchals. It runs out from the old Bombay road at Lodhasye about six miles from Midnapore, and terminates at Binpore, where there is a police station. It is 25½ miles in length, and is metalled up to the 10th mile-post.

In the estimate for the year under review, a sum of Rs. 3,170 was provided under the head of original work for the construction of bridges and for metalling a portion of the road, but for the reasons stated above the greater portion of this amount was spent on earth-work; only a pucca bridge of 3 spans each of 8 feet, which had been constructed in the preceding year up to the springing of the arch, has been finished. Ghooting and laterite for metalling about two miles of the road were collected, and a small quantity of bricks was manufactured. Cost incurred under this head is Rs. 1,488-11-9.

Under the head of repairs a sum of Rs. 1,902-6 was spent on this road during the year. With this expenditure the unmetalled portion of the road has been top-dressed and approach roads were made on both sides of the khalls which have not yet been bridged. The road for about 15 miles in length was widened and raised, and the sides of embankment were turfed in places where necessary. A wooden bridge has also been repaired, and all-wood logs for repairing another large wooden bridge have been purchased.

The road has been fully bridged up to the 13th mile. In the estimate for the year 1874-75 the committee have allotted a sum of Rs. 15,000 for completing the bridges and metalling the road up to the 24th mile, but I think it will now be necessary to divert a portion of the allotment to other roads injured by the cyclone of 15th October 1874.

*Road No. III, from Dakguri to Paribati.*—This is a branch of the above-mentioned line, and is itself an important line of communication joining Ghybasa with Midnapore. It is 7½ in length, of which about one mile is metalled.

A pucca culvert of 1 span of 4 feet was constructed, and certain quantity of materials collected for the construction of another culvert at a cost of Rs. 140-1-3.

The surface of the road in places where necessary was dressed. About 2 miles of the road were widened and raised, and slopes on both side of the khalls, which were not yet bridged, have been cut and made easy. The metalling of the first mile of the road has also been renewed,—cost Rs. 609-1-6.

The budget for the year 1874-75 provides only for ordinary repairs to the road and existing bridges.

*Road No. IV, from Chunderkona to Amलगorah.*—This is another line of communication in the Gurbetta sub-division. It connects the road No. I and its junction at Amलगorah with the road between Ghattai and Chunderkona, and is 16 miles in length.

With the expenditure of Rs. 300-14-6 incurred on the road during the year under review, the road has been top-dressed throughout its length. Earth-work and turfing, where necessary, were executed, and two bridges were thoroughly repaired.

Like the road No. I, this road has also suffered much from the cyclone of the 15th October. The trees fallen on the road have already been removed, and earth-work commenced to fill in the breaches and to remedy the other injuries caused by the cyclone. The Deputy Magistrate of Gurbetta has submitted an estimate for Rs. 1,867 for the repairs of the damages. This estimate seems heavy; it is proposed to expend Rs. 600 provided in the budget of the current year in the repairs of these damages, and any further sum that may be required to complete these repairs might be met from the savings on the other roads.

*Road No. V, from Chunderkona to Gawalpore.*—This is a very important road in the Gurbetta sub-division for traffic between Ghattai and Ghybasa, and is 16 miles in length.

This road is fully bridged, and was in a very fair condition before the cyclone of the 15th October 1874. During the year under review surface repairs to the whole of the line were executed, and earth-work and turfing where necessary were done at a sum of Rs. 480-2-9.

A large wooden bridge on the 9th mile of the road, over the Nohokulak khall, was thoroughly repaired and partly reconstructed by the District Engineer at a cost of Rs. 1,165. Two other wooden bridges—one over the Moorskhally khall, and the other over the Danga river—were also thoroughly repaired. Cost Rs. 827.

This road has suffered much from the cyclone; two of its bridges have been injured and the road itself breached in good many places. The Deputy Magistrate of Gurbetta has submitted an estimate for Rs. 1,729 for the repairs of the damages. These repairs will be carried out from the sums provided in the budget for 1874-75; any additional sum that may be required may be drawn from the savings on the other roads.

*Road No. VI, Bardwan road.*—This is, too, one of the most important of the local roads of this district, being the straight route from Midnapore to Burdwan. It is 3½ miles 2 furlongs in length, of which 1 mile 2 furlongs is within the municipal jurisdiction of the town of Midnapore.

The road was metalled in the preceding year up to the 15th mile. During the year under review a further length of about 2¼ miles of the road has been metalled by the District Engineer. Grouting to the extent of 8,100 cubic feet for metalling a portion of the 23rd and 24th mile was collected and stacked on the road-side, and bricks, 119,000 in number, were manufactured for the construction of a large bridge at Kamarbandi on the 27th mile, and a pucca culvert of 1 span of 4 feet on the 28th mile of the road.

One pucca bridge of 3 spans each of 10 feet was completed from the springing of its arches, and another pucca culvert of 1 span of 4 feet was also constructed. A pucca culvert of 1 span of 8 feet, which was built last year, has been thoroughly plastered this year. All the above-mentioned works come under the head of original work.

Metalling of more than 3¼ miles of the road has been renewed by giving a layer of laterite two inches in thickness over a breadth of 12 feet. The crest of the unmetalled portion of the road about 13 miles in length has been dressed off. The embankment of the road, nearly 17 miles in length, has been thoroughly repaired, widened, and raised and side slopes were turfed. Boundary bund on both sides of the road showing the extent of land belonging to the road has also been constructed throughout the said length and trees planted on both sides of the road have been reared throughout the year. The approach road on both sides of the Temohani river intersecting the road on the 17th mile have also been made.

The committee have allotted only a sum of Rs. 1,100 for the annual repairs of the road and its existing bridges, but the road has suffered much by the cyclone of the 15th October last. The metalling of the 2¼ miles of the road executed by the District Engineer has been washed away in parts, the road has been breached in good many places, and some of the bridges have also been damaged. The estimate of the cyclone repairs amounts to Rs. 4,460. All the above damages are to be repaired this year and a timber bridge with masonry piers and wing walls will be constructed over the Kamarbandi khal on the 27th mile of the road.

*Road No. VII, Nondah road.*—This road branches off from the imperial road to Oolohorra and ends at Nandah. It is a short, but very useful line. Nondah is the well known seat of sugar manufacture in the district, and is 3¼ miles in length, 1 mile of which is metalled.

In the budget for the year 1873-74 a sum of Rs. 1,000 was provided for manufacturing bricks for metalling the remaining portion of the road, but the work was deferred to some other year on account of famine and the amount spent on other roads in relief work. Only a sum of Rs. 4-0 laid out on the road during the year in question in widening about 2 miles of the road and raising the same portion in places where necessary.

In the budget for the present year provisions have been made to widen and raise the remaining portion of the road; the estimate for repairing the damages caused by the cyclone is only Rs. 50. The metalling of the first mile of the road is also to be repaired.

*Road No. VIII, from Beldah to Contai.*—This road runs from Contai to Beldah, where it meets the Grand Trunk Road to Cuttack, and is the only line of communication between Contai and Midnapore. It is 35 miles 2 furlongs in length.

During the year under review the whole of the line has been top-dressed and the road from the 35th mile up to the 23rd mile has been raised and widened in places where necessary. Two pucca culverts, which were in a dilapidated state, were dismantled and partly reconstructed; nine bridges of the line have been repaired and white-washed.

The grouting collected last year for metalling the portion of the road running through the Boleghai Bazar has been spread and consolidated; cost incurred on these works is Rs. 1,336-15.

The cyclone of the 15th October last has caused considerable damages to the road. The inspection bungalow at Egrah on the 17th mile of the road has been quite destroyed. The embankment of the road has been greatly injured. During the current year the damages described above will have to be repaired, and the incomplete bridges to be finished.

*Road No. IX, Section I, from Contai to Tumlook, Kaliaugger Section.*—This is the road between Contai and Tumlook; it begins near Contai at the junction with the dak road to Kedgepore. The whole line from Contai to Tumlook is 38 miles 3 furlongs in length, of which 18 miles are in the Contai sub-division and the rest in the Tumlook sub-division.

The crest of the road throughout this section had been dressed off at the commencement of the working season, and earth-work and turving in places where needed have also been completed at a cost of Rs. 167-1-10.

Bricks, 10,000 in number, have been manufactured for the construction of its culverts. Cost Rs. 504.

This road has also suffered much from the cyclone. The amount provided in the estimate will be sufficient for repairing damages, and about Rs. 1,500 will be required for the construction of four of its bridges.
